PROFESSIONAL SUMMARY

Frontend engineer with 3+ years shipping production React and Next.js interfaces in TypeScript. At Entugo, built the UI for four products inside one monorepo (restaurant dashboard, customer app, form builder, admin console) on a shared component library with design tokens, RBAC driven views and Stripe checkout flows. Equally at home in Figma handoff, cross browser rendering and animation performance work, with enough backend depth to own a feature end to end.

TECHNICAL SKILLS

Frontend: React.js, Next.js (App Router, SSR/SSG/ISR), TypeScript, JavaScript, HTML5, CSS3, Vue.js
Styling & UI: Tailwind CSS, ShadCN UI, Bootstrap, responsive design, component architecture, design systems and tokens
Interactive & 3D: Three.js, GSAP, SwiperJS, web animations, render performance tuning
State & Data: React state management, Context API, Redux, REST integration, GraphQL, form and validation patterns
Testing & Tooling: Vitest, Cypress, Vite, Webpack, Babel, npm, Git, Figma
Auth & Payments: JWT, OAuth 2.0 (Google), RBAC, Clerk, Stripe, Razorpay
Backend (supporting): Node.js, Express.js, PostgreSQL, Prisma, REST API design
Infrastructure: Docker, Nginx, Vercel, GitHub Actions, CI/CD

EXPERIENCE

Software Engineer

Nov 2024 - Present

Entugo LLC

Remote

- Built and shipped the React and Next.js front ends for four products in one TurboRepo monorepo: restaurant management dashboard, customer app, Tugo Forms and the admin console, in TypeScript with Tailwind CSS and ShadCN UI.
- Created a shared component library and design tokens across those products, so the four front ends run on one visual system with less duplicated UI code.
- Implemented RBAC driven rendering so each role sees only its permitted views and actions, letting the four portals be built in parallel on one permission model.
- Built Stripe checkout and subscription interfaces (plan selection, webhook driven status, refund states) with idempotent client handling.
- Designed the front end for QR based loyalty flows, including review gated coupons and the point issue and redemption screens restaurant staff use.
- Led a 3 engineer team and set the component and code review standards shared across the front ends.

Junior Developer

Apr 2023 - Aug 2024

Newwton LLC

Remote

- Rebuilt performance critical Three.js and GSAP components with better render state management, removing animation stutter on low end devices and resolving cross browser rendering differences.
- Integrated REST APIs across 3+ core React features and fixed auth token and distributed state bugs causing intermittent UI failures in the CrypTag NFC workflow.
- Built and maintained Newwton's responsive company and product front end, translating Figma designs into reusable React components.

Freelance Web Developer

Jul 2021 - Mar 2023

Fiverr

Independent, Remote

- Delivered 15+ responsive, cross browser client applications across e-commerce, services and portfolio, with 100% on time delivery and a 5.0/5 rating.
- Owned the full lifecycle solo: requirements, UI build, deployment and post launch support, alongside a full time Diploma.

PROJECTS

GladCode Portfolio | Next.js, React, TypeScript, Tailwind CSS, gladcode.in

- Terminal inspired developer portfolio built from scratch: animated sections, scroll driven interactions, fully responsive layout, SEO with OpenGraph metadata and dynamically generated social images.

MEDILINK | Next.js 15, React 19, TypeScript, Tailwind CSS, PWA, medilink.gladcode.in

- Responsive patient and doctor dashboards, digital prescription views and document access, installable as a PWA, behind JWT with RBAC and OTP verification.

GPS College Official Site | React, REST APIs, SwiperJS, gpsakoli.ac.in

- Production institutional site serving 500+ students and faculty: media galleries for images and PDFs, content rendering and a custom admin dashboard for faculty and course management.

EDUCATION

B.Tech, Computer Science (Minor in IoT)

Aug 2024 - May 2027

Government College of Engineering, Amravati

Diploma, Computer Science

Jul 2021 - Jun 2024

Government Polytechnic, Sakoli
